

There's *NOWHERE* in the world like CSU Spur.

A day at CSU Spur has something for all ages — it's a laboratory, veterinary clinic, museum, art studio, teaching kitchen, classroom, living garden, innovation center ... all in one! CSU Spur is home to real science and research, and opens its doors to welcome visitors to see it all happen! From school programs to summer camps, to services open to the community, CSU Spur is a place for all. Come visit, it's free – and see why there's nowhere in the world like CSU Spur.

Admission is free at CSU Spur! We're open to the public from 9 a.m. to 5 p.m. Monday-Friday and 10 a.m. to 2 p.m. on the 2nd Saturday of each month. For the latest information, follow @CSUSpur on social media and visit CSUSpur.org

WHAT MAKES CSU SPUR *Different?*

FIELD TRIPS

CSU Spur's educational programs inspire youth to tackle real world problems through hands-on, experiential learning. Curious kids can connect with scientists, researchers, veterinary experts, and faculty through live demonstrations, hands-on experiments, and interactive experiences.

2ND SATURDAY

Each 2nd Saturday of the month, CSU Spur offers programming and family-friendly fun for visitors. Educators, scientists, and partners share their most exciting hands-on activities – creating a fun and new experience for visitors every time.

VOLUNTEER

CSU Spur volunteers connect children, families, and community members to hands-on science, and real world solutions.

LIVE RESEARCH

Guests can observe live research being conducted by world-class scientists and researchers. This includes issues in water quality, food safety and food security, and the translation of veterinary medicine to novel treatments for human health.

CONNECT WITH PROFESSIONALS

CSU Spur connects and inspires visitors through the ability to watch ongoing research, to see behind-the-scenes, and to watch professionals at work.

HANDS ON EDUCATION

CSU Spur's rotating programs connect visitors to scientists, researchers, veterinary experts, culinary experts, and more through live demonstrations, hands-on experiments, and interactive experiences.

LIFELONG EDUCATION

CSU Spur is dedicated to educating all people — from pre-K to gray and lifelong learners — CSU Spur provides certification, professional development, and continuing education programs in a variety of subjects.
