

Match the instrument to its family!

(*Hint: You will have multiple instruments connected to each of the four instrument families.)

Brass

Woodwind

String

Percussion

Trumpet

Triangle

Saxophone

Harp

Clarinet

Xylophone

Violin

Drum

Bassoon

Get Creative! Now it's your turn to make some music!

Look around your home and see what you can use to create your very own instrument. Try stretching rubber bands or dental floss over an empty cereal box to build a string instrument or use a paper towel tube to make a shaker. You can add rice or beans, buttons, or anything else you find in your junk drawer. Remember to ask an adult if you need help.

When your instrument is finished, ask an adult to help you record a short video of you playing your instrument, and email your video to Wiz Kid at csuspurwizkid@colostate.edu. Wiz Kid can't wait to see (and hear!) the amazing instruments you come up with!
