

Can it compost?

Draw a line from the item to the bin that matches the best way to dispose of it: Recycle, Compost, or Trash.

Choose your own no-waste adventure!

Wiz Kid's favorite activities that help her pass the time (especially during summer) are included to inspire your weekend plans.

Nature Walk Bingo:

Make a bingo card of things you can find in nature like leaves, rocks, insects, colors and patterns. Then go for a walk (with a parent or guardian) and fill out your custom card.

Birding+:

Observe the birds in your yard or flying overhead, then take some time to sketch them on scrap paper, noticing things like their colors, beak shape, and wingspan.

Cloud Spotting:

Lay on a blanket outside and look for shapes and pictures in the clouds!

Recycled Art:

Use cardboard, bottles, cans, newspapers, and more to create something special! It could be a building or sculpture, even an animal – let your creativity take the lead!

Magazine Collage:

Flip through an old magazine to create something new.

Sock Puppet Theater:

Transform your old socks into fun puppets! No sewing needed!

Host a Toy Swap with your friends:

Have everyone bring their old toys to trade for something new!

Shadow Drawing:

Use sunlight and interesting objects to trace shadows on scrap paper (or with chalk on the sidewalk).
